Mission Statement

The Cuyahoga County Board of Developmental Disabilities (Cuyahoga DD) supports and empowers people with developmental disabilities (DD) to live, learn, work, and play in the community.

Background

Research shows there are benefits to recreation and physical activity. Movement and exercise results in increased flexibility, balance, coordination and self-confidence. In addition, group recreation activities provide ways to socialize and feel more connected with others.

People with DD encounter barriers to fully participate in their community. Social and attitudinal barriers can make people with DD feel unwelcome. Inaccessible parks, trails, sidewalks, and recreation/fitness facilities limit opportunities. In addition, recreation programs and services are often not inclusive, accessible, or adaptive physically, cognitively, or financially.

People with DD should be able to access and participate fully in a community where they are welcomed, supported, and celebrated.

Proposal Intention

We encourage Cuyahoga County- based municipal recreation centers and nonprofit community-based recreation providers to apply for the Recreation Services grant.

Recreation Services grant recipients will create and or improve the accessibility, depth and breadth of inclusive and adaptive recreation/leisure/sports activities for adults with DD in Cuyahoga County.
