

Inquiry for Internship

Cuyahoga County Board of Developmental Disabilities (Cuyahoga DD) has a limited capacity for student internships and graduate level field placements. All placements are unpaid, under the direct supervision of Cuyahoga DD professionals, and are subject to availability of supervisors, the assessed fit between the student's educational needs and the experiences available, and completion of necessary paperwork and processes prior to formal acceptance. (Potential student interns will need to complete and pass a criminal background check and drug test prior to acceptance.)

Cuyahoga DD supports both traditional and non-traditional internships:

- A **traditional** internship involves the student identify learning goals and receiving some type of educational credit. There must be an agreement in place between Cuyahoga DD and the student's college or university. (If one is not in place, we may be able to work with you/your college or university to create one.)
- A **non-traditional** internship usually involves the person seeking experience and/or knowledge about a particular field or topic to add to resume. Non-traditional internships are usually not affiliated with a college or university.

Types of internships include:

- Behavioral health (counseling, psychology and social work)
- Occupational and physical therapy
- Speech language pathology
- Early childhood (children ages birth through age 2)
- School-age supports (behavior curriculum intervention)
- Community development (community-based social work practice, creating inclusive communities and workplaces and related topics)
- Other (based on a student's interest)

To be considered for any internship with the Cuyahoga DD, please provide the information below.

Name:

Phone number:

Email:

College/University name:

Academic department:

Degree sought:

Academic department contact name and phone number (if applicable):
