Question	Explanation
Does provider staff have: <ul style="list-style-type: none"><li>• Current CPR certification and</li><li>• Current first aid certification?</li></ul> 5123-2-09	At the time of the review, the provider did not evidence valid FA/CPR certification. It was shared with the provider that the provider is not permitted to provide services to any individual without having current FA/CPR including an in-person skills demonstration. Currently, the provider does not provide any services to any individual. Immediate citation was issued, the provider completed POC immediately and POC was approved. "By August 14th 2024 I will complete my First Aid and CPR courses. I will not provide services to anyone in the meantime. In the future I am aware that I must always have up to date FA and CPR."
Plan of Correction	Status
My plan of correction is to take first aid and CPR on August 14th 2024. In the future I will keep better track of the expiration date for my certification and will not have any clients until it is complete.	Approved
